

Career Worksheet

This worksheet requires you to look at three different career pathways and to evaluate what you think may be the best fit for you. Fill out the table below—some boxes will require you to RESEARCH the career. Be prepared to share what you learned with a small group of your peers. It is especially important to consider the career and technical opportunities you have beyond high school. It is also important to consider more than one career in case obstacles prevent you from pursuing one of your paths.

Three interests of mine (think of things you enjoy that might lead to a possible career)	Interest one	Interest two	Interest three
Possible jobs that fit these interests	Job one	Job two	Job three
High school and tech prep courses I have taken or would like to take that would help with these jobs	Courses	Courses	Courses
Internships and Apprenticeship programs that would help me in these areas	Internships and Apprenticeship	Internships and Apprenticeship	Internships and Apprenticeship
Technical, College or Military programs that would help me to reach my goals	Technical, College or Military	Technical, College or Military	Technical, College or Military

Financial considerations—the typical salary and benefits for all three jobs	Starting salary and benefits	Starting salary and benefits	Starting salary and benefits
---	------------------------------	------------------------------	------------------------------

Of the three choices, which one do you think you are most suited to and why?
