

Web Source Evaluation and Information Guide

Using the evaluation methods we have covered as a class, evaluate the website in the areas of content, bias, credibility, and design.

If you deem the website a useful resource, look for evidence that you can use in your argument.

Potential Claim:

Useful quote/data/paraphrase/summary from the source

Potential Claim:

Useful quote/data/paraphrase/summary from the source

Potential Counterclaim:

Useful quote/data/paraphrase/summary from the source
